Headline Hierarchy

①

A clear, consistent heading structure (H1 → H2 → H3...) helps search engines understand your content's hierarchy, improving visibility. This same structure is a critical framework for AI, allowing it to comprehend, synthesize, and even generate new answers from your information.

Fake DMCA Takedown

A legal tool weaponized. By filing a fraudulent DMCA takedown notice, your opponent tricks search engines into de-indexing your most valuable content. Your top-ranking pages vanish from the results, forcing you to fight a costly, time-consuming battle just to get them back.

Stage	Reach	Click-Through	Conversion	M.Int.
E	-100%			

Market. Int. –1. Targeted Channel loses all Reach while this card is in play. At the start of their turn, the channel's owner may pay 3 to roll vs Market. Int.: if lower, discard Fake DMCA Takedown and restore Market. Int. and Reach.

Riding the Dragon's Back

Jademond Digital SEO experts recommend: In competitive Baidu searches, top results are dominated by Baidu's own platforms and high-authority sites (Baike, Baijiahao, Zhidao, Zhihu, Bilibili). By publishing branded content there, businesses can "piggyback" visibility — reaching searchers directly and gaining trust through authority association. Jademond.com

Stage	Reach	Click-Through	Conversion	M.Int.
F	+250		1 Up	

Play only if this Channel already has 2 other SEO Enhancements. While in play, this Channel's CTR cannot advance beyond Stage 3.

The expert cards on this page can only be requested from the individual SEO experts themselves. Only they do have copies of these cards and only they can give them to collectors.

Make sure to ask them to bring you a card before you meet them in person - they might not have them with them all the time.

Only the cards of my Jademond colleagues you can print out by yourself ;)
